

Cartridge Filter

features:

- Down to 0.2 micron filtration.
- Custom design and engineering options.
- Easily openable lid options without need of any special tools.
- Special coating options for corrosion resistance.
- Available in stainless steel 304, 316L, super duplex or SMO254
- Available with ATEX certificate requirements
- Greater solids holding capacity.
- Temperature and chemical compatibility.

Cartridge Filter

General

Quality filtration systems require both quality housings and quality filter cartridges. TIMEX Housings have been specifically designed to meet the scale-up requirements of different industries for efficient filtration with special attention given to the materials of construction, durability, ease-of-use and quality control.

Our Housings are widely being used in Petroleum Industry, Refineries, Oil & Gas Fields, Petrochemical Industry, Iron and Steel Industry, Automotive Industry, Textile Industry, Paper and Pulp Industry, Medical and Pharmaceutical Industry, Food and Beverage Industry where fine filtration is essential.

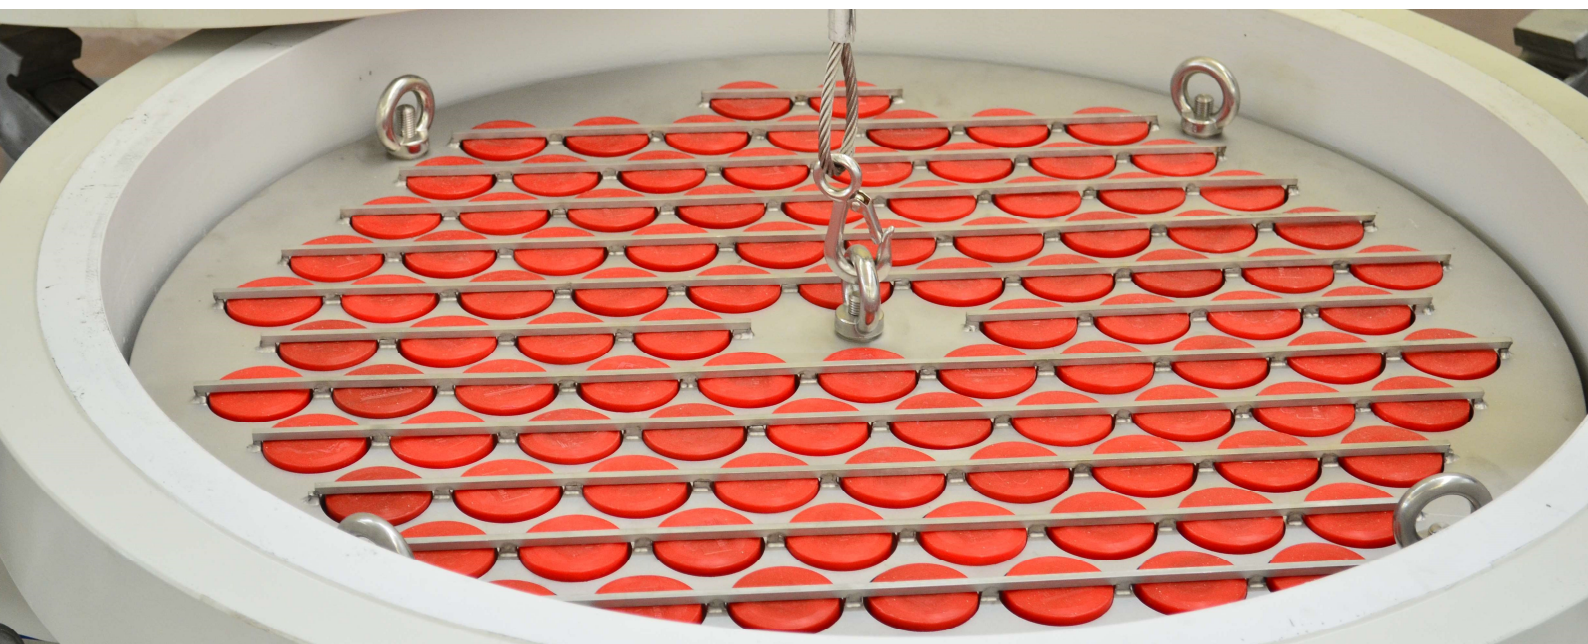

As per our Standard Procedure, fabrication process of Housings is considered in 5 different steps. Following the receipt of the enquiry, Design & Engineering Stage is entered. Further to the calculations, all customized designs are reviewed and evaluated to ensure the best possible design. Relevant drawings are prepared for the approval prior to the manufacturing. Hence, compatibility of the system design is fully assured before the start of fabrication. In case no problematic case is detected, fabricated Housings leave our works following the Quality Inspections. Beginning by the procurement of the raw materials to the packing of the finished items, every step of fabrication is accomplished according to our Quality Policy. We fabricate in accordance with ISO 9001. CE Marking as per the PED regulations, ASME or LLOYD stamps can be applicable for our products.

Some benefits of TIMEX Housings;

- o Specially designed housings according to your needs. TIMEX products provide efficient and reliable solutions while building satisfaction.
- o Housings made of different materials conforming with ANSI, API, NACE, ASTM, ASME, ISO, AWWA etc. Please contact for special materials.
- o System components with a variety of options, from steam jackets to special vent and drains.
- o Referring to its Modular Design, configuration is quick and easy.
- o Detachable bottom plate design enables easy and fast replacement of cartridges.
- o %100 pressure tested at the factory.

With a variety of housing styles, we are sure to have one to fit your application needs...

industry

Automotive, Aviation,
Ballast treatment,
Electronics, Food &
Beverage; Mining,
Oil & Gas,
Petrochemical, Power
Generation, Pulp &
Paper

municipal

Potable Water, Waste Water,
Desalination, Brackish
Water, High rise buildings,
Pre-filtration to Membranes

irrigation

Agriculture, Golf & Turf,
Green Houses

aquaculture

Fish Farming, Recirculating
Aquaculture Systems (RAS),
Fish Processing Industry
